

STEALTH²

HD FAIRWAY

FEATURE	BENEFIT
---------	---------

OUR HIGHEST MOI FAIRWAY

A radical departure from traditional TaylorMade fairway woods, Stealth 2 HD features a eye-catching high MOI design that visually stands out. It combines low CG projection with an ultra-high MOI to deliver off-the-charts performance. The oversized 200cc head features a low-profile design to increase confidence and playability for golfers of all skill levels.

ADVANCED INVERTED CONE TECHNOLOGY

Variable face thickness is engineered to maximize ball speed across the face while maintaining playability in an easy to launch shape.

EASY LAUNCH WITH DRAW BIAS

A larger, low-profile sole helps the club hug the ground at address and makes it easier to achieve a high launch. Internal weighting encourages a draw-bias ball flight.

V STEEL™ SOLE DESIGN

This iconic TaylorMade technology stays true to its heritage by improving turf interaction and versatility.

ADVANCED LASER ALIGNMENT

Providing visual contrast between face and crown, the laser etched aid is designed to highlight directional alignment for boosted confidence and accurate aim.

THRU-SLOT SPEED POCKET

Our flexible Speed Pocket™ design is engineered to maximize ball speeds and produce additional forgiveness on low-face strikes.

LAUNCH AND SPIN

High Launch / Mid Spin
