

STEALTH²

PLUS FAIRWAY

FEATURE	BENEFIT
---------	---------

THREE DIFFERENT FAIRWAYS IN ONE	A combination of the massive 50g sliding weight and the 2° loft sleeve allows golfer's to dial in their desired flight and performance characteristics. Shift the weight back for higher launch and stability; leave the weight centered for versatile performance; or shift the weight forward for a low-spin ball flight and maximum distance.
--	--

ADVANCED INVERTED CONE TECHNOLOGY	Variable face thickness is engineered to maximize ball speed across the face while maintaining playability and performance in a Tour-inspired shape.
--	--

MULTI-MATERIAL CONSTRUCTION	A combination of the lightweight titanium body, carbon crown and heavy steel weight delivers optimal weight distribution and premier performance.
------------------------------------	---

ADVANCED LASER ALIGNMENT	Providing visual contrast between face and crown, the laser etched aid is designed to highlight directional alignment for boosted confidence and accurate aim.
---------------------------------	--

THRU-SLOT SPEED POCKET	Our flexible Speed Pocket™ design is engineered to maximize ball speeds and produce additional forgiveness on low-face strikes.
-------------------------------	---

LAUNCH AND SPIN	FLIGHT BIAS
Mid Launch / Low Spin	Neutral

SHAFT (MID-FLIGHT)
Mitsubishi Kai'li Red FW (75 X, S) (65 R)
